

Appendix K

To the Local Joint Health & Safety Committee and or Health & Safety Representative of the Royal City Local.

I, _____ am experiencing an overburdening situation on my route.

Although Canada Post Corp. claims in Appendix K that they are committed to ensuring the health and safety of their employees, upon reporting this situation to my Supervisor, _____ I believe that the issue has not been addressed in a satisfactory manner. As stated in Appendix K, a “one size fits all” approach will not work, so we must find find the right solution to each problem. Therefore I am hereby requesting that my Local Health & Safety Committee and or Health & Safety Representative conduct the necessary investigation to determine if there is an overburdening situation. The possible solutions may involve changing the placement of the relay boxes or adding additional authorized relay boxes.

If an agreement cannot be reached or if Canada Post Corp. does not implement the decision by the Committee, I will be filing a grievance in order to resolve this issue.
