Appendix LL – Overtime on own route

Date: _____

Attention: _____

Depot: _____

As you are aware, our Collective Agreement provides for relief in ongoing overtime situations, subject to the following criteria,

Where the workload on an employee's route requires the employee to work more than one (1) hour of overtime per day, on at least three (3) days per week, over a period of 20 (20) working days (excluding December), the employee shall have the option to receive assistance. Assistance, equal to the average overtime hours worked during the twenty (20) day period, will be provided, but only after having completed the staffing of uncovered routes.

The new language further prescribes that assistance shall be provided until the problem giving rise to the overtime is resolved:

Consideration shall first be given to providing assistance on the delivery portion of the assignment. If appropriate, consideration may be given to providing inside assistance. The assistance shall continue until the overtime is resolved.

Please be advised by way of this correspondence that I wish to invoke my option to receive assistance.

Sincerely,

Name: _____

Route: _____
